Eager to

- tackle a complex domain
- engage with business experts
- join an innovative team driven by agility and simplicity to craft some pragmatic code.

Work Experience

- Dec 13 - Dec 14 **Application Developer**, CSC/INASTI, Brussels.
Migration of a client-server application (web, COM+) to a new .NET platform 'Sequoia' (WPF, WCF, LLBLGen Pro) by keeping the existing Oracle database. Implementing new features to Sequoia such as a UI Framework.
- Feb 13 - May 13 **.NET Developer**, *internship*, Bewan, Waterloo.
Analysing and implementing Bewan's new ERP. Project started with Windows Workflow Foundation as main technology but it was dropped in favour of a more pragmatic solution including NServiceBus and RavenDB.
- August 12 **Developer**, *student job*, Postes Médicaux de Garde Luxembourg-Dinant, Bièvre (BE).
Implementing tools easing the coordinator its work : personal data and labour input aggregation, bank transfer automation, salary calculation.

Volunteering

- Dec 14 - Dec 15 **Volunteer work in New Zealand**, WWOOF.
Twelve hosts offered to help them in their day-to-day life : conservation work, organic farming, small building projects, ... A private Jekyll blog recount this adventurous journey.

Education

- 2011-2013 **Bachelor's Degree in Business Computing**, Haute Ecole de Namur-Liège-Luxembourg, Namur.
- 2008-2011 **B.S. in Engineering (Mechanics and electronics)**, UCL, Louvain-la-Neuve, graduated 1st year in 2009.
