can't wait to tackle a complex domain, interact with an innovative agile team and code aiming for simplicity and pragmatism

Work Experience

- Dec 14 - Dec 15 **Volunteer work in New Zealand, WWOOF.**
Twelve hosts offered to help them in their day-to-day life : conservation work, organic farming, small building projects, ... A private Jekyll blog recount this adventurous journey.
- Dec 13 - Dec 14 **Application Developer, CSC/INASTI, Brussels.**
Migration of a client-server application (web, COM+) to a new .NET platform 'Sequoia' (WPF, WCF, LLBLGen Pro) by keeping the existing Oracle database. Implementing new features to Sequoia such as a UI Framework.
- Feb 13 - May 13 **.NET Developer, internship, Bewan, Waterloo.**
Analysing and implementing Bewan's new ERP. Project started with Windows Workflow Foundation as main technology but it was dropped in favour of a more pragmatic solution including NServiceBus and RavenDB.
- August 12 **Developer, student job, Postes Médicaux de Garde Luxembourg-Dinant, Bièvre (BE).**
Implementing tools easing the coordinator its work : personal data and labour input aggregation, bank transfer automation, salary calculation.

Education

- 2011-2013 **Bachelor's Degree in Business Computing, Haute Ecole de Namur-Liège-Luxembourg, Namur.**
- 2008-2011 **B.S. in Engineering (Mechanics and electronics), UCL, Louvain-la-Neuve, graduated 1st year in 2009.**

Languages

- French **Mother Tongue**
- English **Full professional proficiency**
- Dutch **Professional working proficiency (writing, speaking)
but passive bilingual**
